

MEDFAK, UIB

GUIDELINES FOR USE OF YOUR WORK TITLE

- If you want to get help from the communicators at the faculty regarding media coverage or other services, it is expected that you use your UiB-title.
- If you speak in public, whether it is in the media, at debates or lectures, use the work title that comes with your main employer.
- Think about the relevance for your audience when considering using the name of your research group, the institute and/or the faculty. Make sure that "UiB" always is included, first and foremost.
- The UiB e-mail must be the first choice in all correspondance regarding UiB issues.
- Use the UiB logo when you do presentations and lectures.
